

PRESS RELEASE

EU-funded H2020 project SINERGY (2021 – 2023)

[Capacity building in Smart and Innovative eENERGY management](#)

We're very pleased to announce the delivery of the 1st version of the SINERGY Training Courses and Learning Materials. For more info, please visit <https://project-sinergy.org/Lectures>.

The EU-funded H2020 project SINERGY exploits instruments and coherent measures foreseen by the WIDESPREAD-05-2020 Call, aiming to unlock the research potential and improve IMP's research competitiveness, turning it into a regional "point of reference" in the domain of smart energy management technologies.

SINERGY TRAINING MATERIALS

SINERGY aims at establishing collaboration with strategic partners (AIT and NUIG) and providing "know-how" exchange in the area of smart grids, distributed energy resources, building optimization and building information modelling. Therefore, as part of SINERGY,

partners are dedicated to preparation of learning material and training courses in domain of smart energy management in general, as follows

- [Smart grid technologies](#) delivered by the Austrian Institute of Technology - AIT (Austria)
- [Energy-efficient building operation](#) delivered by the National University of Ireland, Galway - NUIG (Ireland).

SINERGY TRAINING EVENTS

The training sessions are scheduled and aligned with the plan of mutual exchange of researchers and ongoing project events and meetings.

More information about the past training events can be found at the following links:

- [Staff exchange and Training, November 2021](#)
- [Staff exchange and Training, March 2022](#)

More information about the future events can be found at

<https://project-sinergy.org/Events/Forthcoming-Events>

CONSORTIUM PARTNERS (contacts)

SINERGY consortium comprises 3 partners from 3 European countries (Serbia, Austria and Ireland). **For more information, please contact:**

- Dr. Nikola Tomašević, Institute Mihajlo Pupin, nikola.tomasevic@pupin.rs
- Dr. Johannes Stöckl, Austrian Institute of Technology, Johannes.Stoeckl@ait.ac.at
- Mr. Luis Miguel Blanes Restoy, luismiguel.blanesrestoy@nuigalway.ie
